

**Lines of trade experiences.**

This list is used by the administration to search for those who have experience or background in the potential client's line of trade. A searchable background list allows for a quicker connection with the client. Example, a person working together with someone in the same line of -trade such as a florist with a florist, a designer working with a designer will be more effective.

Do not be shy. If you see that we have missed an area of trade, add it so we can update our files.

Highlight the category you want to add under your name in the database. If you wish, add bullet points to be more specific. Example-Accounting/tax/cost analysis/CPA/Bookkeeping etc.

Please save this using (Line of Trade and your name) in the title.

Once completed forward to [richard@richardassists.com](mailto:richard@richardassists.com) as an email attachment. Please do not delete any item, even if it does not apply to you. Thank you
